Pharmacovigilance Manager, LQPPv and EU QPPv

Localisation: Haan, Germany

Contract: Permanent, Full time

Partial time Home office possible

ProductLife Group is the European industry-leading specialist service provider for the Life Sciences industry, focused on delivering high quality professional services in the areas of Regulatory, Safety, Quality, Process alignment and Medical services. All ProductLife Group's services are targeting support for comprehensive compliance and safety throughout the product life cycle, therefore enabling continuity and productivity of product development and subsequent processes.

As a result of a new project we are now seeking a pharmacovigilance manager LQPPv and EU QPPV to support our Pharmacovigilance Platform Services.

Primary Responsibilities

- Supervising the conduct of Pharmacovigilance submissions and all related documents
- Ensuring that the benefit risk assessment of the products are current and that changes to the assessments are followed by appropriate actions
- Ensuring that full response are provided to any national competent authorities and to the European Medical Agency
- Ensuring and verifying that the Pharmacovigilance System Master File is constantly up-to-date
- Contact point for audit and inspection
- Act upon when issues are escalated on a 24 hour basis
- Address performance management across all Platform staff with the support of the Head of Practice, senior members of Platform team and General Managers
- Ensure that clients feedbacks are collected and managed

Candidate profile

- **Education: Pharmacist, Local QPPv and EU QPPV**
- **Experience: 5 years of experience in Pharmacovigilance**

Key skills

- Excellent knowledge of PV regulations and guidelines
- Resident in Germany

Full training will be provided, and we encourage our staff to attend external courses as appropriate and to join professional organisations.

There will be opportunities for advancement within the company or the wider group for motivated candidates, who have the ambition and potential for growth in our dynamic and international organisation.

Benefits

- Competitive salary package
- Training and development
- International and growing company
- Dynamic environment

Please send a Curriculum Vitae and covering letter by e-mail to recruitment@productlife-group.com
